Materials, Printing Technology & Framing Options

Our canvas prints are made using durable Cordura canvas, known for its high resistance to wear, tear, and water, stretched over a Meranti wood frame, which is lightweight, warp-resistant, termite-resistant, and smooth for a premium finish. The artwork is printed using a high-end printing machine with Japanese technology, ensuring ultra-high color accuracy, sharp details, fade-resistant prints, and eco-friendly water-based inks, resulting in long-lasting, vibrant, and high-quality canvas prints suitable for homes, offices, hotels, and commercial spaces.

Additionally, an extra frame can be added, available in two options: wood with a laminated finish or plastic fiber with reinforced wood, providing enhanced aesthetics and durability.
